The FEMALES ON FIRE CD 2 celebrates 35 talented female artists from around the world, delivering songs in a tapestry of different genres & styles of music dedicated to messages empowering femininity, human equality, love, communication and vitality. Designed to promote and celebrate our favourite and talented artists, the Females on Fire CD and Tour exposes independent female singer/songwriters from all genres of music AND also encourages male artists who have either a song or song title that is about, for and dedicated to women, females and femininity.
